

As to the M. Abdullayeva's paper

M.V. Munipov

The note considers the scientific way of professor V.M. Munipov in the format of memories, when he worked in VNIITE. In particular, he oversaw the Department of vehicles' design. VNIITE created the first "perspective car-taxi" in the concept of the minivan. V.M. Munipov flew to New York to represent a new type of car to the mayor of this city, but the Soviet authorities refused to sell the project documentation of this car – taxi abroad. In the USSR VNIITE was one of the first institutions which started to implement CAD in the project activity with the active organizational participation of V.M. Munipov.

Keywords: V.M. Munipov, VNIITE, perspective taxi-car, CAD
